

The Heavens Declare the Glory of God...
The Law of the Lord is Perfect, Restoring the Soul
Psalm 19:1a,9a

4- The Flood

Review of Comets & Kinds

- The Solar System is **Young**
- God's Design is **Exquisite & Versatile**
 - Including Pre-Engineered **Ability to Change**
- Mutations **Wreck Things**

What We Want to Accomplish

- Sin Brings Terrible Consequences
- The Flood Showed Tremendous Energy
- But Things Even Out Over Time
- The Earth Was Changed Very Quickly
- Evidence of the Flood is Glaringly Obvious Once You See It

Sin Brings Terrible Consequences

The Lord wasn't joking when He kicked 'em out of Eden
It wasn't for no reason that He shed His blood
His return is very close and so you'd better be believin'
That our God is an awesome God
Our God is an awesome God - He reigns from heaven
above
With wisdom power and love - Our God is an awesome
God - Rich Mullins, *Awesome God*

Class Discussion: What are consequences to sin?

Doctors, hospitals, courts, police, graveyards,
disease, cruelty, medicine, taxes, property
famine, waste, bitterness, hatred,
lawlessness, war, division, poverty, pride,
envy, want, money
DEATH

Studying the Flood is not merely a parlor
exercise of gaining knowledge. It is meant to
drive us to the Cross.

I'd Rather Not Think About It - 1

Know this first of all, that in the last days mockers will come with their mocking, following after their own lusts, and saying, "Where is the promise of His coming? For ever since the fathers fell asleep, **all continues just as it was from the beginning of creation.**"

For when they maintain this, **it escapes their notice** that by the word of God the heavens existed long ago and the earth was formed out of water and by water, through which **the world at that time was destroyed, being flooded with water.** - 2 Peter 3:3-6

I'd Rather Not Think About It - 2

For since the creation of the world His invisible attributes, His eternal power and divine nature, have been clearly seen, being **understood through what has been made**, so that they are **without excuse**. For even though they knew God, they did not honor Him as God or give thanks, but they became futile in their speculations, and their foolish heart was darkened. Professing to be wise, they became fools - Romans 1:20-22

Catastrophic Plate Tectonics – Andrew Snelling PhD

Scale of Vulcanism is Tiny Today v the Flood
India, Columbia River, Yellowstone Caldera
Fountains of the Great Deep Were Volcanic
(FotGD)

Continental Sprint not Slow but fast
walking speed versus fingernail growth
speed, inches per year

Plate Tectonics Reshaped the Earth
Causes California Andreas Fault and
Volcanos

Things Even Out Over Time - Isostatic Equilibrium

Think of dropping an ice cube in a glass of water. The cube plunges in, rises, goes up and down until it stops
It applies to:
Earthquakes, Plate Tectonics, Weather
Vulcanism

It started with the Flood & Is still settling down today
Weather (Think Global Warming)
Earthquakes Getting Less Intense
Tectonic plates move now at fingernail growth speed
Volcanic ash much less now

Catastrophic Plate Tectonics – Notes

- Scale of Vulcanism is Tiny Today v the Flood
- India, Columbia River, Yellowstone Caldera
- Fountains of the Great Deep Were Volcanic (FotGD)
- Continental Sprint not Slowly Fast walking speed versus Fingernail Growth Speed, Inches per Year
- Plate Tectonics Reshaped the Earth
- Causes California Andreas Fault and Volcanos.

Not Shown in the Movie More Problems With Conventional Plate Tectonics

- Too Slow
 - Continental Motion Anomalies
 - Undeformed Trench Sediments
 - Blotchy Sea Floor Magnetic Anomalies
- Kimberlite & Diamonds
Cold Plates at Edge of Mantle
High Pressure Low Temperature Minerals
Detachment /Thrust Mechanisms

Conventional Plate Tectonics Cannot Explain

- Huge Rainfall From Water Entrained From the Fountains of the Deep
- Fossils in Mountains, esp. Sea Critters
- Hot New Ocean Floor Expands & Push Up Seawater
- Massive Tsunamis From Where Pates. are Stuffed Under (Subduction)
- Tsunamis Scour the Earth's Surface Worldwide
- Fossils on Mountains
- Catastrophic Rock Decay Rates
- Buckled Layers of Sedimentary Rock From Plate Collisions
- Recent Elevation of Mountains Many Many More
- Cooled Ocean Basins Shrink and Fall, Bringing the Water with It
- Continental Margins Form Rapidly From Continental Debris Pushed By the Floodwaters
- Formation of Large Valleys & Canyons (Think Grand Canyon)

Discussion

Why Do You Think Some People Disavow the Flood Account as They Have the Same Observations That Creationists Have?

2 Pet 3:3-6
Romans 1:20-22
